

## ARTICLE RETRACTION

The Editor-in-Chief, Pakistan Journal of Pharmaceutical Sciences regretfully retract the article: “Solid dispersions: A Review, by Dharendra K, Lewis S, Udupa N and Atin K published in Vol.22 No.2, April 2009” on complaint of Prof. Dr. Henderik W. Frijlink, Head, Department of Pharmaceutical Technology and Biopharmacy, Faculty of Mathematics and Natural Sciences, University of Groningen, The Netherlands.

This complaint was also communicated to Prof. Dr. N. Udupa, Manipal College of Pharmaceutical Sciences, Manipal University, Manipal, 576104, Karnataka, India on September 8, 2013.

**Replied from Prof. Dr. N. Udupa** (Co-author dated September 9, 2013): “Mr. Dharendra K, the first author who without permission from his supervisor Dr. Shaila Lewis and without permission from me and without showing us the manuscript, he has directly submitted the paper to your journal.

Step-down by **Prof. Dr. N. Udupa** (September 9, 2013): As I hurt and affected by your journal, though I did not commit any mistake, I will like to step down as Editorial Board member of the journal.

**Clarification from Ashok Kumar Singh** (dharendra007@gmail.com dated September 11, 2013)  
Unfortunately at the time of literature collection i found only the c1.pdf(<http://dissertations.ub.rug.nl/FILES/faculties/science/2006/d.j.van.drooge/c1.pdf>) and in this pdf author name was not written anywhere and its really unfortunate that i have not mentioned the URL too. I take responsibility for the plagiarism. It was not intentional and only its mistake. My mentor was not involved in the compilation but to get it published I included her name as the corresponding author. I would therefore like to withdraw this article.

**Acton from the Journal:** Plagiarized article “Solid dispersions: A Review, by Dharendra K, Lewis S, Udupa N and Atin K published in Vol.22 No.2, April 2009” has been deleted from the website of the journal.
